VALLEY FORGE®

The Greatest Name In Flags

Our *Commitment* to "Made in the U.S.A."

It is Valley Forge Flag's philosophy and practice that our U.S. flags are made entirely of domestic materials and that each process in manufacturing the flag is accomplished in U.S. facilities with U.S. labor.

The beliefs, values, and dreams that the U.S. flag represents are an inalienable part of the American character and psyche. It is for this fundamental reason that we believe that Americans, regardless of their national origin, race, color, creed, or religion, should be the producers of the various materials and processes that go into making an American flag.

As a founding member of The Flag Manufacturers Association of America (FMAA), Valley Forge Flag is proud to be an American manufacturer committed to a daily, nationwide effort to educate the press and the public about the importance of domestic manufacturing of U.S. flags. The vast majority of the American public prefers U.S. flags to be made in the U.S.A. The FMAA certification logo is a valuable aid in identifying products "Made In The U.S.A." and will be prominently displayed on all qualifying products.

ALL-AMERICAN COLLECTION

100% Made in the U.S.A.

ALL AMERICAN COLLECTION

We are proud to introduce a line of flag kits that are **Made in the U.S.A.** The All-American Collection was created to deliver superior flagpoles to the public using the quality, craftsmanship and expertise of American manufacturing. Each step in the process was carefully reviewed to ensure a superior quality product.

- Steel poles are made with a wall thickness that guarantees ***durability***: 18 gauge for the In-Ground Pole Kits and 28 gauge for the 2-Piece Pole Sets
- All poles are ***powder coated tough***: a dry electrostatically charged paint that forms an extremely tough and durable coating that resists cracking, peeling, marring and corrosion
- The ball, aluminum truck, and cleat are ***vacuum metalized***: this process gives a superior high gloss, long lasting color retention and the durability to withstand an outdoor environment
- The 3-inch ball topper is made of ***solid hardwood***: vastly superior to the traditional balls normally used in other flagpole sets
- The 2-position brackets used in the 2-piece pole sets are made from ***recycled high-density polyethylene (HDPE)***: tested 25% stronger than nylon and abs brackets commonly used in the market

HONOR AND REMEMBER FLAG	
ITEM#	DESCRIPTION
35HONOR	3' x 5' Nylon

The Honor and Remember Flag's design is distinctive, yet simple. Each detail on the flag symbolizes an important part of the overall meaning of the flags message.

- The Red Field represents the blood spilled by brave men and women in America's military throughout our history, who willingly gave their lives so that we all would remain free.
- The Blue Star represents active service in military conflict. This symbol originated with World War I, but on this flag it signifies service through all generations from the American Revolution to present day.
- The White Border beneath and surrounding the gold star recognizes the purity of sacrifice. There is no greater price an American can pay than to give his or her life in service to our country.
- The Gold Star signifies the ultimate sacrifice of a warrior in active service who will not return home. Gold reflects the value of the life that was given.
- The Folded Flag signifies the final tribute to an individual life that a family sacrificed and gave to the nation.
- The Flame is an eternal reminder of the spirit that has departed this life yet burns on in the memory of all who knew and loved the fallen hero.

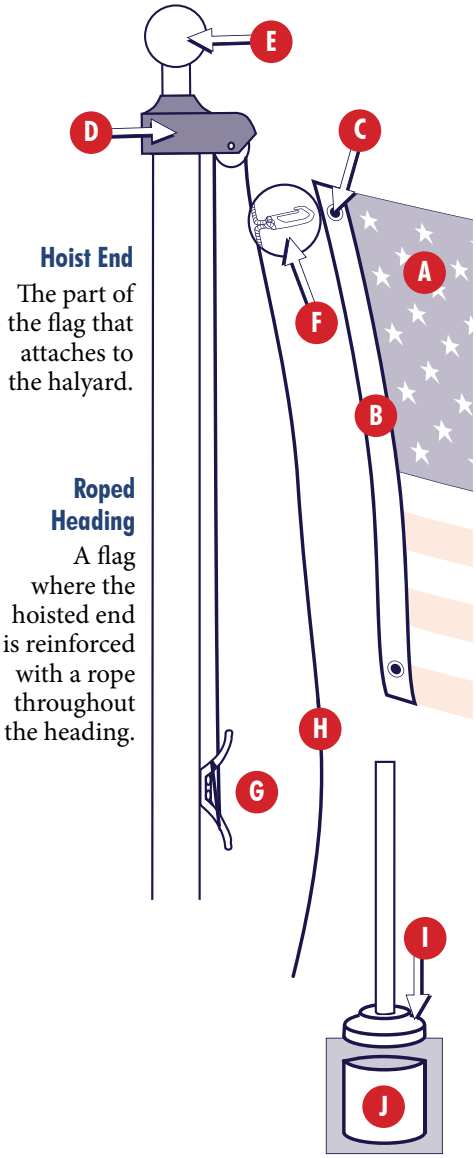
FLAG DESCRIPTION & TERMINOLOGY

- **A** **Canton**: Blue field, white stars. Also known as Field or Jack.
- **B** **Heading**: Heavy fabric used to secure flag to the halyard line, usually made of durable cotton or synthetic canvas.
- **C** **Grommet**: Brass ring or eyelet (normally in the heading) for mounting outdoor flags.
- **D** **Truck**: The device at the top of an outdoor pole that houses the pulley wheel.
- **E** **Finial**: A decorative top for a flag pole, often an eagle, spear or ball.
- **F** **Snap Hooks**: Hardware made of either brass or molded nylon to attach the flag to the halyard line.
- **G** **Cleat**: The device used to secure the bottom of the flagpole halyard.
- **H** **Halyard**: Rope used to raise the flag; can be external and tied to a cleat, or internal.
- **I** **Flash Collar**: The cover for the base of the pole, used for cosmetic and protective purposes.
- **J** **Foundation Tube:** Cylinder tube used as a form for the concrete base of an in-ground flag pole.

Outrigger
A flagpole mounted on a building at an angle other than vertical.

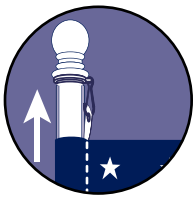


Hoist End
The part of the flag that attaches to the halyard.

Roped Heading
A flag where the hoisted end is reinforced with a rope throughout the heading.

Fly End
The end of the flag that "flies" in the breeze, also the part of the flag that endures the most stress.

Crown™
A flag with pole hem and fringe for indoor display and parade use.



SST
A type of heading that uses the base fabric of the flag to construct a sleeve that usually slides over a pole, with a tab to attach near top.

Fabric Sleeve
A type of heading that adds a piece of fabric to an existing flag to construct a sleeve that usually slides over a pole, with a tab to attach near top.

Pole Hem
The same heading as fabric sleeve but with a fabric lining.

DETERMINING FLAG SIZE

The length of the flag should be at least 1/4 the height of the pole. For example, a 40' pole requires a 6' x 10' flag or larger. This guideline applies to poles 20' and larger. Most residential flags are 3' x 5' or 4' x 6'. Most small industrial and commercial buildings use either a 5' x 8' or a 6' x 10' flag. Major industrial, municipal and government buildings require 8' x 12' and larger. However, the size of the pole is the determining factor.

Flagpole	Flag
20'	3'x5', 4'x6'
25'	4'x6', 5'x8'
30' – 35'	5'x8', 6'x10'
40' – 45'	6'x10' – 8'x12'
50'	8'x12' – 10'x15'
60' – 65'	10'x15' – 10'x19'
70' – 80'	10'x19' – 12'x18'
90' – 100'	20'x38' – 30'x50'

Flag length should be at least 1/4 the height of the pole.
