Flag Description and Terminology

- A Canton** Blue field, white stars. Also known as Field or Jack.
- B Heading** Heavy fabric used to secure flag to the halyard line, usually made of durable cotton or synthetic canvas.
- C Grommet** Brass ring or eyelet (normally in the heading) for mounting outdoor flags.
- D Truck** The device at the top of an outdoor pole that houses the pulley wheel.
- E Finial** A decorative top for a flag pole, often an eagle, spear or ball.
- F Snap Hooks** Hardware made of either brass or molded nylon to attach the flag to the halyard line.
- G Cleat** The device used to secure the bottom of the flagpole halyard.
- H Halyard** Rope used to raise the flag; can be external and tied to a cleat, or internal.
- I Flash Collar** The cover for the base of the pole, used for cosmetic and protective purposes.
- J Foundation Tube** Cylinder tube used as a form for the concrete base of an in-ground flag pole.

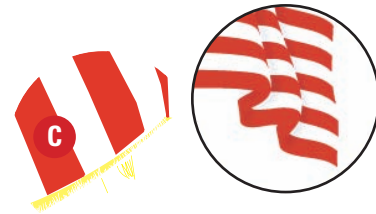

Hoist End

The part of the flag that attaches to the halyard.

Roped Heading

A flag where the hoisted end is reinforced with a rope throughout the heading.

Fly End

The end of the flag that "flies" in the breeze, and the part of the flag that endures the most stress.

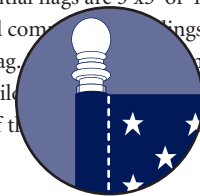

SST

A type of heading that uses the base fabric of the flag to construct a sleeve that usually slides over a pole, with a tab to attach near top.

Determining Flag Size

The length of the flag should be at least 1/4 the height of the pole. For example, a 40' pole requires a 6'x10' flag or larger. This guideline applies to poles 20' and larger. Most residential flags are 3'x5' or 4'x6'. Most small industrial and commercial buildings use either a 5'x8' or a 6'x10' flag. Municipal and government buildings use larger flags. However, the size of the flag should be determined by the building factor.

Fabric Sleeve

A type of heading that adds a piece of fabric to an existing flag to construct a sleeve that usually slides over a pole, with a tab to attach near top.

Flagpole	Flag
20'	3'x5', 4'x6'
25'	4'x6', 5'x8'
30' – 35'	5'x8', 6'x10'
40' – 45'	6'x10' – 8'x12'
50'	8'x12' – 10'x15'
60' – 65'	10'x15' – 10'x19'
70' – 80'	10'x19' – 12'x18'
90' – 100'	20'x38' – 30'x50'

Pole Hem

The same heading as a fabric sleeve but with a fabric lining. Flag length should be at least 1/4 the height of the pole.

My Valley Forge customer number is:

Your Valley Forge customer number can be found on invoices and statements. When placing orders by mail, be sure to include this number on upper left hand corner of typewritten orders. When placing an order by phone, please have your customer number available to expedite order processing.

Valley Forge Flag Company guarantees all Perma-Nyl and Korelex II labeled U.S. flags to be colorfast for ONE YEAR from the date of purchase. This guarantee is limited to replacement of this flag only. No other damages, incidental or otherwise, are covered. No purchase price refunds or shipping costs are covered. Colorfast refers to the colors retaining their base colors. Some color lightening, due to exposure to the sun, is natural, and will not effect the usability of the flag and therefore is not covered under this guarantee. Fabric tears and fraying, as a result of high winds and other climatic conditions, as well as torn flags and normal wear, are not covered by this guarantee. Except as set forth herein, Valley Forge Flag Company makes no other guarantee or warranty, either express or implied, including those of merchantability and fitness for a particular purpose. Valley Forge Flag Company shall not be liable for any direct, incidental, consequential or special damages of any kind whatsoever.
