# Our Commitment to “Made in the U.S.A.”

It is Valley Forge Flag’s philosophy and practice that our U.S. flags are made entirely of domestic materials and that each process in manufacturing the flag is accomplished in U.S. facilities with U.S. labor.

The beliefs, values, and dreams that the U.S. flag represents are an inalienable part of the American character and psyche. It is for this fundamental reason that we believe that Americans, regardless of their national origin, race, color, creed, or religion, should be the producers of the various materials and processes that go into making an American flag.

As a founding member of The Flag Manufacturers’ Association of America (FMAA), Valley Forge Flag is proud to be an American manufacturer committed to a daily, nationwide effort to educate the press and the public about the importance of domestic manufacturing of U.S. flags. The vast majority of the American public prefers U.S. flags to be Made in the U.S.A. The FMAA Certification logo is a valuable aid in identifying products “Made In The U.S.A.” and will be prominently displayed on all qualifying products.

## History

The fabric of American history is woven into every Valley Forge flag. Since our beginnings as a government contractor, we have proudly provided flags to accompany our civil servants as they pursued some of our nation’s most significant endeavors.

Sewn into every stripe is the heritage of protecting freedom.

Stitched into every seam is the pride to honor the brave.

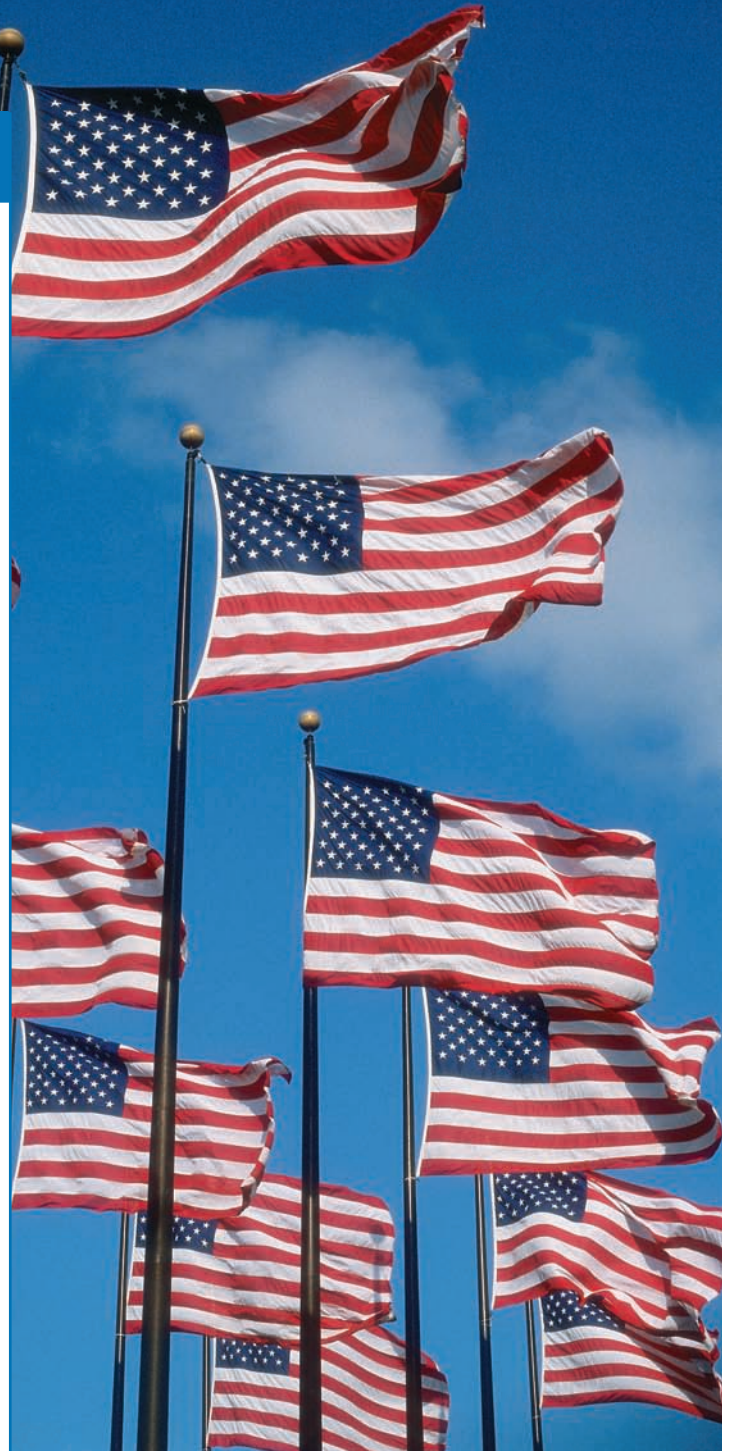

Embroidered into every star is the idea to explore the unknown.
