VALLEY FORGE

The Greatest Name In Flags

Custom Flag & Banner Artwork Preparation

ELECTRONIC ARTWORK: We ask that you provide us with computer-generated artwork in the proper format for production. Raster images/artwork needs to be high-resolution files, (300 dpi at full size). Providing sufficient artwork will result in non-pixilated images when printed. We also implement the Pantone Matching System for all projects. Providing the specific PMS colors for our artwork is preferred.

ARTWORK REQUIREMENTS: We accept the following artwork files:
- Adobe Illustrator (.ai) up to version CS4
- Vector EPS files (.eps) generated by drawing and layout applications
- PDF Files (.pdf) exported from Corel Draw or other Adobe Software
- Please outline fonts or provide the fonts used in your artwork
- All Files should be saved as RGB to allow for maximum color gamut
- Please note: Pixel based files are printed as received
- Our creative team may assist you in recreating your artwork, art changes are billed at $35 per hour

Artwork Files should be emailed to **customquotes@valleyforgeflag.com**. Large files may be uploaded to our FTP Site, please call Customer Service for assistance.

LICENSED SOFTWARE: Adobe Creative Suite 4: Adobe Illustrator, Adobe Photoshop, Adobe InDesign, Adobe Acrobat, Colorburst Rip Software, Flexisign Pro

EXCEPTIONS: Due to the diversity and complexity of submitted artwork we reserve the right to reject artwork that we deem unsuitable or impractical for our printing methods.
