

Dear Valued Dealer of Valley Forge Flag Products,

Valley Forge, along with many other companies in our industry, continues to experience significant cost increases in our key raw materials needed to produce our products. Prices for production materials combined with packaging costs, labor and freight have been steadily rising. As a result, we will be increasing product pricing by 10% effective on all shipments after January 1, 2022. This increase includes current in-house orders not yet produced but does not include orders already placed by participants in the 2023 Scheduled Orders Program.

A new price list reflecting these changes will be available to you as soon as possible. If you would like a list of items that you may have on back order, please contact customer service via email at orders@valleyforgeflag.com or contact Jeff Shaaber or Steve Hartoin directly with any questions or concerns (contact info listed below).

As the holidays quickly approach, we wish you great success meeting your year-end goals. We truly appreciate your business and the opportunity to continue providing you with the highest quality flags and accessories.

Thank you,

Senior Management
Valley Forge Flag

Please contact Jeff Shaaber or Steve Hartoin with questions/concerns or email Orders@ValleyForgeFlag.com or call 1-800-873-5247
